## PROJECTS

### OneTraffic | [OneTraffic.com](https://onetraffic.com)

- **Summary:** OneTraffic is a situational communication SaaS platform intended for traffic participants to keep them safe and informed by delivering the messages they need at the right time and place.
- **Role:** Manage software developing teams using Agile methodologies, frameworks, and tools like Jira, Confluence, Trello, and Bitbucket.
- **Tools:** Jira, Confluence, Trello, Bitbucket

### Route Horizon | [Routehorizon.com](https://routehorizon.com)

- **Summary:** Route Horizon is a platform for route planning and delivery optimization. It helps companies to reduce the overall cost of logistics activities, by adjusting service time, working hours, loading capacities, and other parameters.
- **Role:** Worked on the development team as a software developer, focusing mainly on the back-end implementation of a complex solution consisting of several different mobile and web applications connected to existing client solutions through APIs.
- **Tools:** Visual Studio, Mapbox Studio, Trello, Redmine

**EXPERIENCE****Technical Project Manager  
OneTraffic Inc.**2019 - Present  
Palo Alto, CA

- Successfully guide the work of technical teams. Manage 3 teams of developers remotely from Europe and the USA using Atlassian project management products.
- Articulate project goals and scope, translate business needs into technical terms, and instill shared accountability for achieving project milestones.
- Promoted to the project manager role to plan, schedule, and execute all stages of software development. Assess business implications for each project phase and monitor progress to meet deadlines and standards.

**Software Developer  
INFORA Research Group doo**2014 - 2018  
Subotica, Serbia

- Successfully implemented a system solution for synchronized sales and delivery planning to the client's ERP.
- Developed applications for route planning, sales, and delivery synchronization and optimization.
- Effectively used open sources like OpenStreetMap and Mapbox to create custom maps for businesses including temporary field roads and applications for smart traffic and collaboration between users.
- Project manager for a GPS tracking application. Mentored junior colleagues.

**EDUCATION****Technology Project Management Certificate  
UC Berkeley Extension, Berkeley, CA**

- An intensive 18-week long Boot Camp dedicated to Technology Project Management. Skills learned consist of Agile methodologies and frameworks, waterfall projects and tools, and use with resource planning and team communication. Developed projects using Trello, G Suite, Jira, Wrike, Asana, Gantt charts, and Work Breakdown Structure (WBS). Additional skills in software development including budgeting, mapping, modeling, and testing.

**Certified Scrum Master (PSM)**, Scrum.org, ID: 628851**Certified Product Owner (PSPO)**, Scrum.org, ID: 656863**Bachelor of Science (BSc), Industrial Management  
Faculty of Business and Industrial Management, Serbia**
