EXPERIENCE

Co-Founder | Technical Project Manager
GG Hive LLC

2021 - Present
San Francisco, CA

- Gathered business and functional requirements, defined project scope, developed timelines, scheduled deliverables, and assigned tasks.
- Led cross-functional teams across the globe, including developers, DBAs, IT and business executives, end-users, testing teams, training teams, and other IT project and program managers
- Created status updates, business requirements documents, and technical documents.
- Key project: **SynergyHealthTech** | SynergyHealthTech.com
SynergyHealthTech project consists of multiple mobile apps and dashboard solutions with a mission to design, develop and incubate scalable tech-empowered solutions to address food insecurity and improve health-related quality of life.

Technical Project Manager
OneTraffic Inc.

2019 - Present
Palo Alto, CA

- Successfully managed software development teams using Agile methodologies, frameworks, and tools like Jira, Confluence, Trello, and Bitbucket.
- Articulated project goals and scope, translated business needs into technical terms, and instilled shared accountability for achieving project milestones.
- Promoted to the project manager role to plan, schedule, and execute all stages of software development. Assessed business implications for each project phase and monitored progress to meet deadlines and standards.
- Key project: **OneTraffic** | [OneTraffic.com](https://onetraffic.com)
OneTraffic is a situational communication SaaS platform intended for traffic participants to keep them safe and informed by delivering the messages they need at the right time and place.

Software Developer
INFORA Research Group doo

2014 - 2018
Subotica, Serbia

- Worked on the development team as a software developer, focusing mainly on the back-end implementation of a complex solution consisting of several different mobile and web applications connected to existing client solutions through APIs.
- Successfully implemented a system solution for synchronized sales and delivery planning to the client's ERP. Developed applications for route planning, sales, and delivery synchronization and optimization.
- Key project: **Route Horizon** | [Routehorizon.com](https://routehorizon.com)
Route Horizon is a platform for route planning and delivery optimization. It helps companies reduce the overall cost of logistics activities, by adjusting service time, working hours, loading capacities, and other parameters.

EDUCATION

Technology Project Management Certificate
UC Berkeley Extension, Berkeley, CA

- An intensive 18-week-long Boot Camp dedicated to Technology Project Management. Skills learned consist of Agile methodologies and frameworks, waterfall projects and tools, resource planning, and team communication. Developed projects using Trello, G Suite, Jira, Wrike, Asana, Gantt charts, and Work Breakdown Structure (WBS). Additional skills in software development including budgeting, mapping, modeling, and testing.
